To ascend you need only a pure heart filled with the love of the ONE Creator, the Supreme Infinite Intelligence - Cosmic Solar Christ Consciousness

Transmission by Ashtar-Athena on June 5, 1995 from SpiritWeb website - edited, updated and improvised by Yana Kalai

We, The Ashtar Command, refer to Christ as the Most Radiant ONE or the Beloved. We trust in ONE Source and in the Divine Plan - Divine Purpose. Our message is always of a positive nature; life-affirming, uplifting and gracious. Our energy signature is always one of love. We play no part in scenarios of abduction, implantation, manipulation, coercion, intimidation, deception or any part of mind control.

Trust your intuitive inner knowing, for we communicate through telepathy and tele - thought transmissions, which may sound like ringing tones (Morse code in your ears or head). We also communicate through a language of Light that can appear as pictograms within your mind, which you then interpret and express in your own words or concepts. We can also place you within a transmission beam and send you messages from our ships or minds to your computer, cell phone, pen or paper.

We transmit our messages to you if you sincerely present yourself with a pure heart and wish to serve as a transmitter of our messages.

We, the Ashtar Command, are Universal Ambassadors of Peace, Freedom and Divine Justice. We follow the Universal Laws, including the Law of Ahimsa - complete harmlessness in thoughts, words and actions that serves as its own protection. We encourage unity, harmony, freedom, sovereignty: peaceful co-existence and loving co-creation with the Creator.

We, the Commanders, are 100% responsible for our space fleet and military positions operations. We trust the Infinite One and obey the Natural Laws. We are at the command of the Most Radian One (Yashua D12 and the Cosmic Solar Christos Dragons). A true commander walks in a spirit of humility and service to the ONE with a pure heart and mind. We are attuned to the Divine Grace and the Prime Directives.

We honor free will. We are here on this sacred Earth, the Intergalactic Hub, to respond to your specific needs and requests for assistance in improving the living conditions of each sentient being through the Galactic Codex. We are enthusiastic about joining with you in more conscious interaction and co-creative endeavors - the New Ascension Earth - communities with E.T.'s and their highly advanced technology to make this planet 12D Jewel of Wonder again.

We honor all life and all people, the whole human race. We recognize ONE RACE of HumanKind. We celebrate the great diversity within creation and honor all races of colors, creeds, religions and governmental - political - military structures that honor individual right to freedom of expression and pursuit of happiness upholding the original Constitution of 1776 and the Declaration of Independence.

We are the Guardians in Action protecting the Earth's civilization. We follow the Law of ONE, the Melchizedek Order of the Elders and we implement the Galactic Codex, systemized code of inner ethics of each soul, to establish Divine Order in all sectors of this Universe. We are here activating Starseeds, Lightwarriors and Star Beings and resurrecting, recalibrating, upgrading their DNA keys and codes and fire letters - scalar waves frequencies for the Quantum SHIFT into the higher octaves of True Realities on Nova Gaia - imagining the brightest future. We are sharing Divine wisdom and Universal knowledge and wisdom - GNOSIS, and we are transmitting healing energies for their well being.

We and our starships are invisible to you unless you raise your frequency to match the level we are maintaining and vice versa. By raising or lowering our vibrations we can seem to appear or disappear. You can only see and hear upon the dimensional level that matches your frequency. As you learn to operate and modulate your frequency to include more multidimensional bands, you will discover the many life forms that share the cosmos with you. You will also learn, as we have, to materialize and dematerialize and create with your mind whatever you need.

We are not limited by time, space, distance or size. Thus we can appear as a tiny spark, a glowing bubble, a form as large as a skyscraper or in a city-sized mothership. Our starships are called Mer-Ka-Ba, light body vehicles of great beauty, formed out of harmony and love to serve our mission and unified intention. They are real at our level as your environment is to you. We can look like a bright star with flashing colors or appear as your familiar flying discs. Our ships are always very radiant and beautiful, glowing with an aura of safety and friendliness.

We send you messages of love and wisdom via crop circles or snow or ice circles. We also form messages within your skies. These will continue and increase until your planet realizes that you are not alone, that you are loved and part of a plan more beautiful and wondrous than you could have ever imagined.

The main teaching and message is spiritual - focusing upon the recognition, realization and embodiment of the Divine SELF, which requires the integration of the energies of the Soul, Monad (Oversoul) and the Higher Self into the physical, emotional and mental bodies. This is accomplished by gradually training oneself to vibrate at only the highest levels of Pure Divine Intelligence - Unconditional Love and Light on a planetary, interstellar, galactic and cosmic level. The process is ongoing.

In summary, you may know us as the Forces of Light/Christ on a mission of love. We are the celestial heralds of the good news - Galactic Guardians of God's love for all creation and of entering your world into an era of peace, freedom, prosperity, unity, sovereignty and good will for all.
