

Cosmic Leadership

- ❖ The Heart of the Leader equals the Heart of the Healer
- ❖ The Aura of the Leader is Luminous and full of Radiance.
- ❖ The Path of the Leader is the Path of TRUTH.

The Great Invocation by Alice A. Bailey

From the point of Light within the Mind of God
Let Light steam forth into the minds of men
Let Light descend on EARTH.

From the point of Love within the heart of God
Let Love stream forth into the hearts of men.
May Christ return to EARTH.

From the center where the Will of God is known
Let purpose guide the little wills of men -
The purpose which the Masters know and serve.

From the center which we call the race of men
Let the Plan of Love and Light workout
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on EARTH.

Semper Fidelis Spiritus Sanctus, Christos Sophia, Maria Magdalena - Fatima

Lord, make me an instrument of your peace:

Where there is hatred, let me sow love;

Where there is injury, pardon;

Where there is doubt, faith;

Where there is despair, hope;

Where there is darkness, light;

Where there is sadness, joy.

O Divine Master, grant that I may not so much seek:

To be consoled as to console,

To be understood as to understand,

To be loved as to love.

For it is in giving that we receive,
It is in pardoning that we are pardoned,
And it is in dying that we are born to eternal life. Amen.

Education starts with the primary upbringing of children, from the earliest possible age; the sooner the better. (reading, writing, singing, dancing, counting, coloring, drawing and painting, playing outside in nature and asking questions)

Every mother, when approaching her baby's cradle, should utter the first formula of education:
"You can achieve anything."

Children naturally feel happy and free; they are encouraged to feel the flow of their energy. They turn their attention to something that is of their great interest, something beautiful, bright, cheerful and divine. They love to play in nature: by the ocean, on the beach, in the meadows.

Children are trained to sense energy through breathwork, yoga, chanting, singing, meditation, dancing and coloring to acknowledge it later on. Children can easily grasp the concept of sharing and co-creating. They easily sense the notion that all is heavenly. They are innocent.

Uplifting children is the KEY. They are our Future. Please protect your precious children!

Speaking with children through loving care and compassion is greatly encouraged - using colorful and simple words with proper grammar even the Light Language.

Allow children to be themselves. Do not correct them too much. Feel their flow, their Spirit.

Education with its curriculum is the same and equal for both genders! ~ Helena Roerich

It is necessary to strengthen Natural Science, such as biology, astrophysics and chemistry in the form of visual or audio learning or through applicable knowledge.

Suggested curriculum for students of all star races:

Linguistics, literature, geography, math, sacred geometry, economy (precious metals and cryptocurrency), computer science, quantum science, multidimensional anatomy, culture, religion, philosophy, alchemy, ancient history, the true teachings of the Essenes (the Celtic church, the Way), metaphysics, astronomy, physical therapy, foreign languages, light languages, the art and science of yoga and ayurveda, music and the crafts - creativity greatly inspired!

Spiritual and philosophical conversations are encouraged on a daily basis.

- Allowing children and students the opportunity to think for themselves is very sacred
- Imagination is cultivated as well as shamanic dreaming and out of body traveling
- Developing psychic abilities slowly but profoundly in a safe place organically is very important

School education and universities are accessible to all souls of the Light Divine under the Law of ONE. There is no discrimination. We are all One. We all come from One Source. [God](#).

A military academy as a university equivalent institution is for those who wish to devote themselves to military affairs and to become Galactic Star Warriors. Physical exercise fused with spiritual discipline is a MUST to **balance the Yin and Yang energies** (Divine Feminine and Divine Masculine) first from within and then project them out with perfect symmetry - [Sacred Geometry](#) and Harmony.

Through yoga practice, energy work, martial arts and yoga philosophy (morals, ethics, virtues), breathwork, chanting and meditation every warrior develops his/her own psychic abilities - [higher sensory perception](#) organically - naturally in Divine Timing under the Law of ONE!
